OUR MISSION

TRAXSales mission is to provide the most accurate, easiest to use traffic counting products and software in the world and to double every companies profitability within the first 6 months of use and then do it again every year.

TRAX DOOR COUNTER SYSTEM

The Visual Proof 2™ Traffic Counting System is the most accurate Traffic Counter in the world, as a matter of fact, calling it just a traffic counter is a disservice. It does not count as people leave your store, instead it counts buying groups as one, and automatically subtracts for non-customer activity.

The retail Visual Proof system provides traffic analysis reports such as staffing to customer activity, closing ratios, revenue per guest, that automatically upload to your PC and/or the Internet, allowing you maximum flexibility to view your data 24/7 anywhere in the world through a secure, password protected portal.

TRAX SMART DOOR CHIME

TRAX has developed new directional smart door chime with volume control that is only activated when people walk in, not when they leave; holding our system accountable for 100% accuracy. Plug & Play for easy installation.

HOW TRAX BENEFITS YOU

The numbers and data provided by the TRAX people counting system and CRM can be beneficial to many aspects of your retail business.

RECOGNIZE TRAFFIC PATTERNS

For retailers, foot traffic is essential to the success of the business. With the TRAXsystem you can accurately track traffic for the day, week or year as well as compare the data to the same periods in the past. By understanding the reports generated by these analytics, business owners can make informed and intelligent decisions about the everyday activities that help their business grow.

INFORMED STAFFING DECISIONS

Much of the overhead of a retail business is the staff working the sales floor. By accurately tracking the retail traffic patterns with people counters, business owners can learn a lot about how they should schedule the employees working the floor and ensure that the business dollars for payroll are being used wisely. By using the TRAX sales system you can determine which days, times and months get the most foot traffic into the store. With this information you can make the appropriate staffing decisions that will greatly increase customer service and maximize sales revenue.
